

# **TT** Model Railway *Initiative 2015*

Bringing you the best in European TT 1:120 Scale Model Railways.

## **“You Drive” Project**

## **Objectives and Details**

**The objectives of this new project are simple:**

We are looking to spread the word about the advances which have been made in the manufacturing of TT scale model railway products for European prototype modellers.

### **The Scale:**

TT scale is to 1:120 scale and is therefore halfway between HO and N. It is perfectly suited for layouts where a scenery content is desirable and the rolling stock is detailed right up to HO standard. The scale is ideally suited for the use in medium sized rooms.

### **The Details:**

You Drive is simply a 4 track board for a variety of TT scale track systems and a variety of stock. It can be run as analogue and digital at the same time.

In its smaller format it is 1500 by 900 mm and in large mode it is 3000 by 900 mm.

The boards are set low to allow all ages to participate and the integral pelmet is displaying the major brands available in the UK.

( The pelmet space is available for sponsors at £100 per 500mm length.)

We have track for TT/1435 mm , TT metre gauge and also TTe for 750 mm.

The “You Drive” track can be brought to shows, can attend club venues and is also available for any sales events at a low rate of expense.

**For enquiries to book the layout please contact: Axel Klozenbuecher on 07743-660461 or email: [AAK2008@hotmail.co.uk](mailto:AAK2008@hotmail.co.uk) Issue Date: 23.02.2015**
